

Make Your Own Mobile

inspired by my NEW picture book:

Materials:

- Use any recycled material such as a left over delivery box or a cereal box
- Paint, markers, crayons or pencils
- Scissors
- String
- Branch found outside on the ground. Please do not break off a branch from a living tree.

Instructions:

- Inspired by the book, choose three elements from nature that you connect with to make your mobile
- Trace the elements on the cardboard using a pencil
- Carefully cut out the three elements
- Paint or colour the three elements
- Hang the elements on a stick using the string
- Hang it up and enjoy!
Now go outside and explore your surroundings. 😊
